EXPERIENCE

Top Of The Line VA

Web Developer. June 2023 - June 2024.

- **Prospector Web Platform:**

- Developed plugins and themes for the platform, utilizing PHP, JavaScript, TypeScript, CSS, HTMX, AlpineJS, and SASS.

- Led the redesign of the platform, implementing a dark mode, a new sidebar navigation, and a drip campaign functionality.

- Performed thorough unit testing of developed features and functionalities.

- **Landing Page Creation:**

- Designed and implemented high-converting landing pages for various companies, events, and membership courses.

- **DNS Management:**

- Configured DNS records for multiple domains, ensuring proper routing and accessibility.

- **Technical Support:**

- Provided exceptional technical support to internal staff. Troubleshooted and resolved issues related to email, web domains, company equipment, and platform usage (Go High Level, Ytel, ProspectorWeb).

- **Email Management:**

- Created and managed business email accounts for efficient communication.

Seguros Catatumbo

Analist II. June 2022 - December 2022.

- **Intranet Development:**

- Developed the company intranet portal using WordPress, creating a user-friendly platform for internal communication and resource sharing.

- **Database Integration:**

- Updated internal web pages using PHP, integrating three new functionalities allowing users to modify data within the IBM iSeries database.

EDUCATION

Specialization in Electronic Engineering: Automation and Control

University Rafael Bellosó Chacín
2015 - 2019.
